# CONTI+ Service APP

Professional on-site management  
for faucets, showers and urinals -  
wireless & intuitive

The CONTI+ Service APP enables advanced, wireless management of CONTI+ electronic fittings on site.

Used in conjunction with the CONTI+ BLE Converter 2nd generation, secure communication is established via Bluetooth® between the fitting and the control device (e.g. smartphone or tablet). Thanks to the user friendly and intuitive CONTI+ Service APP interface, fittings can be identified and selected for very straightforward management, programming and data readings. The app software guides users systematically and logically through all menu items and features so that they can program sanitary rinses, check and set water running times, optimise sensor ranges, save settings and usage data, and more – wirelessly, easily, intelligently and securely.

The CONTI+ Service APP offers double security: users not only need a password to log in, but can also be assigned specific permissions.

The CONTI+ Service APP is available in German and English and manages all CONTI+ electronic faucets, showers and urinals from 2018 onwards.

## INSTALLATION

The CONTI+ BLE Converter 2nd generation is installed between the electronics and the power supply for each fitting – simply and without any tools.

The CONTI+ BLE Converter 2nd generation functions as a Bluetooth® transmitter and receiver for a single fitting. It can remain permanently installed on the respective fitting or be used as a “mobile unit” to temporarily connect to another fitting.

## FEATURES

Display and analysis for each fitting

- Battery status (only with ultra)
- Hours of operation
- Number of times used
- Water consumption
- Number of sanitary rinses
- Max. water temperature (only in special cases)

Parameter settings for each fitting

- Water running time & run-on time
- Filling mode & cleaning stop
- Sanitary rinse mode & runtime
- Restart delay
- Sensor range levels
- Installation location information
- Demand-dependent sanitary rinse triggered at intervals
- Max. water running time (safety switch-off)
- Water consumption calculation information

## Dependable & innovative

Hygienic, smart shower room and washroom concepts to improve quality of life have been the hallmark of the CONTI+ brand for 50 years.

With our innovative technologies, broad product portfolio and comprehensive range of services, we offer optimum solutions to meet all our customers' needs for new build and refurbishment projects. Impressive, flexible all-round expertise.

From advanced electronic and mechanical shower systems, washbasin faucets and urinal controls through to washbasins, as well as complete washroom equipment and water management systems, we take an integrated approach to all products and system solutions, with a strong focus on sustainability, hygiene and reliability. As a result, the CONTI+ brand is respected among design engineers and architects as a professional partner
